

Father's Day Fishing Card Activity Craft

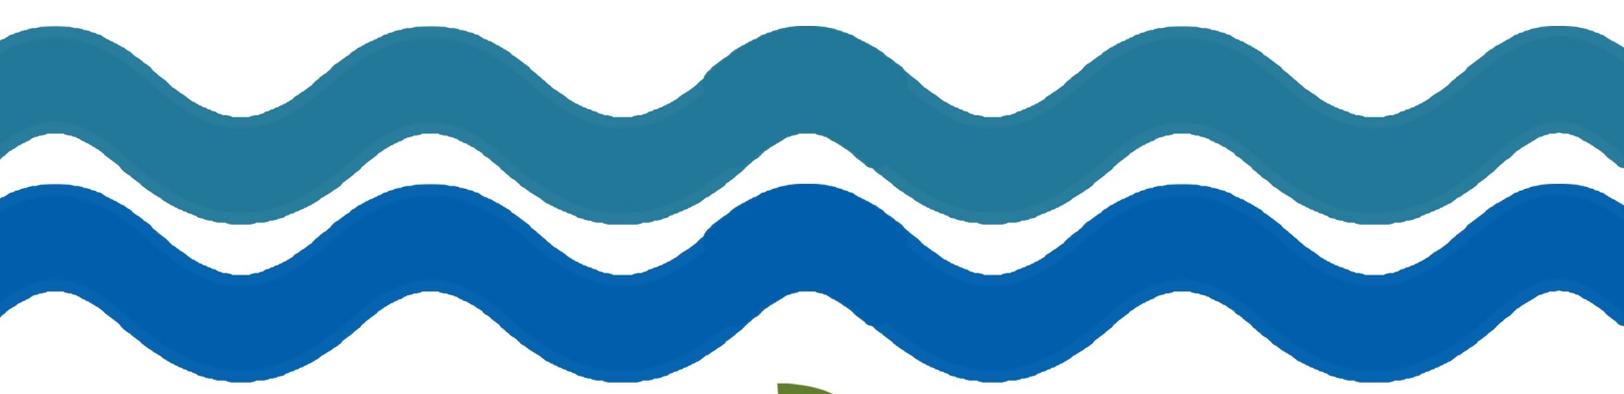

This card is a unique way to say "Happy Father's Day!"
Create a boat and fishing rod scene while using actual string for the "catch"!
Open up the card and a 3D pop-up bucket of fish will appear, along with your greeting!
There's just enough room to write your very own personal message!

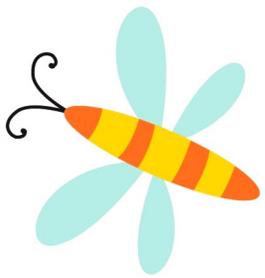

1. Print sheets 2 - 3 on cardstock.
2. Fold the outer card print-out in half so that the boat is facing up. Use the blunt end of scissors to flatten the crease.
3. Cut the inside greeting side of the card along the dotted line. Place this aside for now.
4. Carefully cut out the colored fish, blue water waves, bucket, and white rectangle.
5. Thread a large needle with about 6-7 inches of string. Tie a knot at one end of the string. Push the needle up through the front of the card, at the bottom of the fishing pole. Pull the thread up and then push the need back down at the top of the fishing pole. Allow some slack, as desired, for the fishing line on the pole. Secure this string with a knot at the back.
6. Next, thread the needle with another 6-7 inch length of string. Tie a knot at the end of the string. Push needle up through the front of the card at the top of the fishing pole, just to the side of the previous knot
- 7 Thread the string through the "mouth" area of a fish. (You choose the color of fish you want to use.) Tie this string off and trim with scissors. Use a small bit of glue to secure all knots of string.
8. Stack and glue the blue waves onto the front of the card, at the bottom, as desired, to form the water.
9. Glue the inside of the card (with greeting, from step #3) into the folded creation.
10. Take the white rectangle and accordian fold it. (see drawing below) Glue one end of the accordian just under and to the right of the "Happy Fathers Day" greeting. Allow to dry.
11. Take the bucket and glue this to the top of the folded accordian to create the 3D pop-up effect.
12. Close and press the card, then re-open to separate and arrange the accordian strip. Allow to dry.
13. Finally, glue the two remaining fish to the back of the card, arrange them as desired.
14. Sign your card and give this to a lucky Dad, with LOVE!
